GAME SETUP

Select a Play Mode to determine the type of game you'd like to play. There are four different Play Modes to choose from. Each Play Mode has its own set of Game options.

To select a Play Mode:

1. From the Game Setup screen, Control Pad **up** to highlight PLAY MODE.
2. Control Pad **left/right** to cycle through choices.

PLAY MODE

EXHIBITION: A single game contest between any two teams. You don't have to worry about the condition of your players next week, so pull out all the stops. Every team is available—you can even match a team against itself!

NOTE: Injuries and Overtime periods are not available during Exhibition games.

NEW SEASON: Creates an actual NFL season—complete with AFC and NFC conferences divided into East, West, and Central divisions. Play as many games as you like, or select your favorite team and try to take them to the Super Bowl.

NEW PLAYOFFS: Bypass the season and begin play from the Wildcard round of the Playoff tournament. The Playoff tree is divided into four rounds, culminating with the conference champs going head-to-head in the Super Bowl.

SUDDEN DEATH: Love the competition, but don't have time for 4-quarters of action? Play a Sudden Death game against the CPU (Super NES) or a friend. First team to score takes it all—the taste of victory is just as sweet!

To select Game options:

1. From the Game Setup screen, Control Pad **up/down** to highlight an option.
2. Control Pad **left/right** to cycle through choices.
3. Press **START** when the desired options are selected. The Controller Setup screen appears.

HOME

When you select the home team, you are also selecting the stadium. If you want to play under a dome, be sure to select a team (such as Houston) who plays in a domed stadium. All 28 teams from the 1994 NFL season are available. If you're playing an Exhibition or Sudden Death game, you can choose the All-Madden team as well.

VISITOR

Select the visiting team. In Exhibition and Sudden Death games the visiting and home teams can be the same.

GAME TIME

No matter which Play Mode you select, the Game Time option appears. You choose the full-game length with this option— quarters are broken down automatically by the timekeeper.

WEATHER

You can choose the weather conditions before Exhibition and Sudden Death games. During Season and Playoff games, the weather conditions are determined by Mother Nature and your schedule. A game played in Chicago during the 14th week of the season has an excellent chance of being affected by snow.
Don't worry about games played in domed stadiums. The weather conditions are not a factor due to the controlled environment created by the dome.

CONTROLLER SETUP

From the Controller Setup screen, you can determine which team you wish to represent on the gridiron.
The two teams playing in the upcoming game appear on the Controller Setup screen—home team on the left and visitors on the right. Numbered icons for each controller connected to your Super NES appear in the middle of the screen.

To select teams:

1. From the Controller Setup screen, each human player must Control Pad **left/right** to place their controller icon under the desired team.
2. Press **START** to exit. The Team Matchup screen appears.

NOTE: Controllers do not function during the game unless they are designated to a team. Teams which do not have any controllers designated to them are CPU controlled.

MULTIPLE PLAYER GAMES

The Multi-Player Adapter lets up to five players play against each other or as teammates.
Just plug the adapter into Controller Socket 2 on the Super NES, and you're ready to go.

CAUTION: The Multi-Player Adapter is not designed for use with the Super NES Super Scope, the Super NES Mouse, or Controller Socket 1.

In multiple player games, Controller 1 always controls the team captain. The team captain is in charge of calling the coin toss, kicking the ball, calling plays in the huddle, and quarterbacking the team on offense.

Up to five human players can play ***Madden NFL '95*** at the same time using the Multi-Player Adapter. Each controller controls the player on its corresponding color-coded star.

CONTROLLER #	COLOR-CODED STAR
1	Yellow
2	Red
3	Green
4	White
5	Blue

On rushing plays, players with controllers 2-5 can press **B** or **X** to become the intended running back before the ball is snapped. On passing plays, they can become the eligible receivers before the snap, and the intended receiver after the ball is thrown.

NOTE: If the intended running back is not controlled by controllers 2-5 before the ball is snapped, he is controlled by the team captain after the hand-off.

TEAM MATCHUP

The Team Matchup screen provides you with a pre-game skills comparison between the teams before they take the field. The Team Matchup screen displays ratings by position (on a scale of 1–100) and by specific player (using a 15-point rating system).

The music at EA SPORTS Central can be turned OFF or ON. With music OFF, a celebration tune is still played each time a team scores.

MADDENISMS MODE

John Madden is the most exciting Color Commentator in sports. However, you have the option to silence his mid-action interjections if you wish to take over this responsibility.

PLAY CALL MODE

The default Play Call Mode is Direct mode, but Bluff mode may give you an advantage over opponents who can't help but peek at your team's playbook.

When you select Bluff as your Play Call Mode, only one highlighted box appears for your team in the huddle.

To call a formation and play in Bluff mode:

1. From the huddle, Control Pad in any direction to move the highlighted box around the formation you want.
2. Press **B** to select. The play choices appear.
3. Control Pad in any direction to move the highlighted box around a play you would like to use as a Bluff.

6. Press **B**. The play is selected, although the huddle does not break.
7. Bluff several more plays.
8. Press **A**. The huddle breaks and your opponent has no idea which play you've selected.

PASS CATCH MODE

When Pass Catch Mode is set to Auto mode, you control your receiver ***after*** a pass completion. Select Manual mode to take control of the intended receiver when the ball is still in the air. It's up to you to direct your receiver to catch the ball.

PASS WINDOW MODE

In ***Madden NFL '95***, EA SPORTS gives you the option to view your receivers in the traditional passing windows, or remove the passing windows and scan your receivers as they run their patterns on the field.

INJURY MODE

Unfortunately, injuries are a major part of football—career- ending collisions occur every season in the NFL. As no professional football player is invincible, neither are the athletes in ***Madden NFL '95***. With Injuries ON, players are subject to over 70 different injuries, ranging from Back Spasms to Dislocated Hips.

SETTINGS

After you have modified the Game Play options, select SAVE SETTINGS from the Settings option. RESTORE SETTINGS restores the Game Play Options to their defaults.

Mary Snow provides up-to-the-minute information on injuries from around the league. When an injury occurs during a game, Mary automatically appears with the current status of the injury.

- If more than one player on a team is injured, press **Y** or **A** to cycle through the injured players.

WORLD RECORDS

If you find yourself matched-up against an inferior opponent, you could turn the intensity level down a bit and take it easy on 'em—we suggest generating as much yardage and as many points as possible. The World Records screen keeps track of outstanding individual and team accomplishments.

If you break a World Record during a game, the World Records entry screen appears prompting you to enter your name.

To enter your name for a World Record:

1. From the World Records entry screen, Control Pad **up/down** to cycle through the available letters, numbers, and symbols.

PLAYING A GAME

During the time you spent at EA SPORTS Central for the Pre-Game Show, the players had a chance to suit up and begin stretching out on the field. Now that the game has been customized to your liking and the players are warmed up, it's time to start playing football.

COIN TOSS

To attempt an onside kick:

1. When your team is lined up in kicking formation, press **A** to call up the audible indicator.
2. Press **A** again to set the onside kick formation. Your kicking team shifts to the right-hand side of the ball. (If you wish to return your team to standard kickoff formation, press **A** then **B**.)
